7. The Commission is authorized to create or cause to be created an issue of bonds at a rate of interest not exceeding 6% per annum (six per cent.), payable half-yearly and maturing in not more than 50 years from the date of issue thereof, and to sell, pledge or otherwise dispose of the same on behalf of the Corporation. Such bonds to be charged upon and secured by the railway, and all the assets, rights and privileges, revenues, works, property and effects belonging thereto, or held or used in connection with the railway acquired, equipped, operated and maintained by the Commission under this agreement, and to be for one hundred and fifty thousand dollars (\$150,000), provided that the Commission may, upon obtaining the consent of the Corporation, increase the said bond issue by any amount necessary to cover the capital cost of extensions, improvements, additional works or equipment of any kind for use on the railway. In order to meet and pay such bonds and interest as the same becomes due and payable, the Commission shall, in each year after the expiration of ten years from the date of the issue of the bonds, out of the revenue of the railway, after payment of operating expenses (including electrical power) and the cost of administration, set aside a sufficient sum to provide a sinking fund for the purpose of redeeming the same at maturity. Debentures issued by the corporations as above provided shall, to the extent of the par value of any bonds outstanding from time to time, be held or disposed of by the Commission as collateral security for payment of the said bonds and for payment of any deficit as hereinafter provided, it being understood and agreed that in the event of any increase of the said bond issue the Corporation shall, upon the request of the Commission, deposit with the Commission additional debentures as above described, to be held or disposed of by the Commission in the same manner.

8. In the event of the revenue derived from the operation of the undertaking being insufficient in any year to meet the operating expenses (including electrical power), the cost of administration and the annual charges for interest and sinking fund on the bonds, and for the renewal of any works belonging in whole or in part to the railway, such deficit shall be paid to the Commission by the Corporation upon demand. In the event of the failure of the Corporation to pay such deficit, it shall be lawful for the Commission, in the manner above provided, to sell, pledge or otherwise dispose of so much of the debentures held by the Commission as shall be necessary to supply such deficit, and the Corporation shall forthwith issue and deposit with the Commission debentures to the same amount, so that the debentures held by the Commission may be equal to the amount originally deposited. Any arrears by any corporation shall bear interest at the legal rate.

9. In case the Commission shall at any time or times be prevented from operating the railway or any part thereof, by strike, lock-out, riot, fire, invasion, explosion, act of God, or the King's enemies, or any other cause reasonably beyond its control, then the Commission shall not be bound to operate the railway or such part thereof during such time; but the Corporation shall not be relieved from any liability or payment under this agreement, and as soon as the cause of such interruption is removed the Commission shall, without any delay, continue full operation of the railway, and the Corporation shall be prompt and diligent in doing everything in its power to remove and overcome any such cause or causes of interruption.

10. It shall be lawful for, and the Corporation hereby authorizes the Commission to unite the business of the railway with that of

any other railway system operated in whole or in part by the Commission, and to exchange equipment and operators from one system to another, proper provision being made so that each system shall pay its proportionate share of the cost of any equipment used in common.

11. If at any time any other municipal corporation applies to the Commission for an extension of the railway into its municipality, the Commission shall notify the applicant and the Corporation, in writing, of a time and place to hear all representations that may be made as to the terms and conditions relating to such proposed extension. If, on the recommendation of the Commission, such extension shall be authorized, without discriminating in favour of the applicant, as to the cost incurred or to be incurred for or by reason of any such extension, the Commission may extend the railway upon such terms and conditions as may appear equitable to the Commission.

No such application for an extension of the railway into any municipality, the corporation of which is not a party to this agreement, shall be granted if it is estimated by the Commission that the cost of service of the railway to the Corporation will be thereby increased or the revenue and accommodation be injuriously affected without the written consent of the Corporation.

12. The consent of any corporation required under this agreement shall mean the consent of the council of such corporations, such consent being in the form of a municipal by-law duly passed by the council of the corporation.

13. The railway and all the works, property and effects held and used in connection therewith, constructed, acquired, operated and maintained by the Commission under this agreement and said Act shall be vested in the Commission in behalf of the Corporation, but the Commission shall be entitled to a lien upon the same for all money expended by the Commission under this agreement and not repaid.

14. This agreement shall continue and extend for a period of fifty years from the date hereof, and at the expiration thereof be subject to renewal, with the consent of the Corporation from time to time for like periods of fifty years, subject to adjustment and reapportionment as herein provided for the purpose of this agreement as though the terms hereof had not expired. At the expiration of this agreement the Commission shall determine and adjust the rights of the Corporation, having regard to the amounts paid or assumed under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

15. This agreement shall not come into effect until it has been sanctioned by the Lieutenant-Governor in Council and by the Legislature of the Province of Ontario.

In witness whereof the Corporation, the Commission and the Guelph Railway have respectively affixed their corporate seals and the hands of their proper officers.

Any arrears of the Corporation shall bear interest at the rate of six per cent. per annum. If the Corporation shall make default in payment of such deficits the Commission shall thereupon sell or otherwise dispose of so much of the debentures of the Corporation as shall be necessary to supply such deficiency at such rates of discount or premium and such terms and conditions as the Commis-

At the expiration of this agreement the Commission shall determine and adjust the rights of the Corporation, having regard to the amounts paid or assumed by the Corporation under the terms of this agreement, and such other consideration as may appear equitable to the Commission and are approved by the Lieutenant Governor in Council.

SCHEDULE "A" (b).

Draft agreement relating to the Mimico Division;

This indenture made the first day of December, in the year of our Lord, one thousand nine hundred and twenty,

Between:

The Hydro-Electric Power Commission of Ontario (hereinafter called the "Commission") of the first part,

and

The Corporation of the City of Toronto (hereinafter called the "Corporation"), of the second part.

Whereas the Commission has, at the request of the Corporation, acquired for and on behalf of the Corporation certain properties of the Mimico Division of the Toronto and York Radial Railway Company, all as described and set out in Schedule "A" (b) hereto, and hereinafter called the "Railway" to be controlled, equipped and operated under the terms of *The Hydro-Electric Railway Act, 1914*, and of a special Act authorizing this agreement;

And whereas the Corporation has requested the Commission to control, equip and operate, and the Commission has agreed with the Corporation on behalf of the Corporation to control, equip and operate the railway upon the terms and conditions and in the manner herein set forth; but upon the express condition that the Commission shall not in any way be liable for any financial or other obligation or loss whatsoever by virtue of this agreement or arising out of the performance of the terms thereof;

And whereas the electors of the Corporation have voted in favour of authorizing the Corporation to enter into the necessary agreements with the Commission for acquiring the railway;

And whereas the Corporation has issued debentures for the amounts set forth in clause 2 (b) hereof, and has deposited the said debentures with the Commission.

Now therefore, this indenture witnesseth:—

1. In consideration of the premises and of the agreements of the Corporation herein contained, and subject to the provisions of the said Acts and amendments thereto, the Commission agrees with the Corporation,

(a) To equip and operate the railways on behalf of the Corporation, subject to clauses 11 and 12 hereof;

(b) To issue bonds, as provided in clause 3 hereof to cover the cost of acquiring the railway;

(c)

(c) To furnish as far as possible first-class modern and standard equipment for use on the railways, to operate this equipment so as to give the best service and accommodation possible, having regard to the district served, the type of construction and equipment adopted and all other equitable conditions, and to exercise all due skill and diligence so as to secure the most effective operation and service of the railways consistent with good management;

(d) To regulate and fix the fares and rates of toll to be collected by the railway for all classes of service;

(e) To utilize the routes and property of the railways for all purposes from which it is possible to obtain a profit;

(f) To combine the property and works of the railway and the power lines of the Commission where such combination is feasible and may prove economical to both the railway and users of the power lines;

(g) To permit and obtain interchange of traffic with other railways wherever possible and profitable; provided always, and it is hereby agreed, that the Commission will not operate any of the trams, cars or other rolling stock of said railway on any highway within the limits of the City of Toronto without first obtaining the consent of the Corporation;

(h) To supply electrical power or energy for operation of the railway at rates consistent with those charged to municipal corporations;

(i) To apportion annually the capital costs and operating expenses of all works, apparatus and plant used by the railway in common with the Commission's transmission lines in a fair manner, having regard to the service furnished by the expenditure under consideration;

(j) To apply the revenue derived from operation of the railway and any other revenue derived from the undertaking to the payment of operating or working expenses, including the supply of electrical power or energy, and the cost of administration and annual charges for interest and sinking fund on the money invested, and such other deductions as are herein provided for;

(k) To set aside from any revenue thereafter remaining an annual sum for the renewal of any works belonging in whole or in part to the undertaking;

(l) To take active steps for the purpose of taking over, equipping and operating the railway at the earliest possible date after the execution of this agreement by the Corporation and the deposit of the debentures as called for under clause 2 b hereof;

(m) To pay over annually to the Corporation, if deemed advisable by the Commission in the interests of the undertaking, any surplus that may remain after providing for the items above mentioned.

2. In consideration of the premises and of the agreements herein set forth, the Corporation agrees with the Commission;—

(a) To bear as hereinafter provided the cost of acquiring, equipping, operating, maintaining, repairing, renewing and insuring the railway and its property and works as established by the Commission;

(b) To issue debentures to the amount of \$260,000.00, maturing in fifty years from 1st December, 1920, and bearing interest at a rate

rate of six per centum per annum, payable half-yearly at the office of the City Treasurer in the City of Toronto, Ontario, which shall be deposited with the Commission previous to the issuing of the bonds hereinafter mentioned. The said debentures are similar to debentures to be issued by the Corporation under the provisions of two other agreements between the parties hereto of even date herewith respecting the Metropolitan Division and the Scarboro Division of the Toronto and York Radial Railway, and the total amount of debentures to be issued by the Corporation under the three agreements, for the acquisition of the three railways is \$2,375,000.00;

(c) To make no agreement or arrangement with, and to grant no bonus, license or other inducement to any other railway or transportation company without the written consent of the Commission;

(d) To keep, observe and perform the covenants, provisos and conditions set forth in this agreement intended to be kept and observed and performed by the Corporation, and to execute such further or other documents and to pass such by-laws as may be requested by the Commission for the purpose of fully effectuating the objects and intent of this agreement.

3. It shall be lawful and the Commission is hereby authorized to create or cause to be created an issue of bonds to be charged upon and secured by the railway and its undertaking, and all the assets, rights, privileges, revenue, works, property and effects belonging thereto and to be for the amount of \$260,000.00, provided that the Commission may, upon obtaining the consent as herein defined of the Corporation, increase the said bond issue by any amount necessary to cover the capital cost of extensions, improvements and additional works or equipment of any kind for use on the railway, and provided that with the approval of the Lieutenant-Governor in Council the Commission may dispose of any property not required for the purpose of the railway and use or dispose of the whole or part of the proceeds thereof in expenditure on capital account or invest the whole or part thereof in security of the Province of Ontario for the retirement of the said bonds at maturity.

4. In order to meet and pay such bonds and interest as the same become due and payable the Commission shall in each year after the expiration of ten years from the date of the issue of the bonds out of the revenue of the railway after payment of operating or working expenses, including the supply of electrical power or energy and the cost of administration and annual charge for interest, set aside annually such sums as may be necessary to provide a sinking fund, on basis of not more than forty years for the payment of all the said bonds which shall be held for and applied toward the payment of such bonds or any renewals thereof, at maturity, and the Commission shall have power from time to time to issue bonds under the provisions of the said Special Act for the purpose of providing for such additional money as may be necessary with the accumulated sinking fund on hand to repay the bonds so issued when the same respectively mature, provided that the sum so set aside for sinking fund shall be sufficient to provide for payment of all the bonds issued on account of the said railway within fifty years from the said first day of December, 1920.

5. (1) The Corporation is authorized to issue debentures to the amount of \$260,000.00, payable in fifty years from 1st day of December, 1920, and bearing interest at the rate of six per cent. per annum, payable half-yearly.

(2) Upon the execution of the said agreements the Corporation shall issue and deposit the said debentures with the Commission; and is further authorized to and shall, from time to time thereafter

after upon the requisition in writing of the Commission, issue and deposit with the Commission further similar debentures for the same amount of any increase as provided in subsection 3 of section 9, of the bond issue of the Commission to cover the capital cost of extensions or improvements of the railway.

(3) In the event of the revenue derived from the operation of the railway being insufficient in any year to meet the operating or working expense, including the electric power or energy and the cost of administration and the annual charges for interest and sinking funds on the bonds and for the renewal of any works belonging in whole or in part to the railway, such deficits shall be paid upon demand of the Commission by the Corporation. Any arrears of the Corporation shall bear interest at the rate of six per cent. per annum. If the Corporation shall make default in payment of such deficits the Commission shall thereupon sell or otherwise dispose of so much of the debentures of the Corporation as shall be necessary to supply such deficiency at such rates of discount or premium and such terms and conditions as the Commission in its sole discretion shall deem to be in the interests of the railway, the proceeds of such debentures being used solely for the purposes herein contained.

(4) If the remaining debentures are insufficient in the opinion of the Commission to meet all payments required to be made by the Corporation under this Act or the said agreements, the Corporation is hereby authorized to and shall issue and deposit forthwith with the Commission similar debentures to an amount sufficient in the opinion of the Commission to make up the deficiency.

(5) All debentures issued and deposited with the Commission under this clause shall be held by the Commission as collateral security for the bonds issued by the Commission under clause 3, and for any payment required to be made by the Corporation under this agreement or the said Act.

6. In case the Commission shall at any time or times be prevented from operating the railway or any part thereof by strike, lockout, riot, fire, invasion, explosion, act of God, or the King's enemies, or any other cause reasonably beyond its control, then the Commission shall not be bound to operate the railway or such part thereof during such time; but the Corporation shall not be relieved from any liability or payment under this agreement, and as soon as the cause of such interruption is removed the Commission shall, without any delay, continue full operation of the railway, and the Corporation shall be prompt and diligent in doing everything in its power to remove and overcome any such cause or causes of interruption.

7. It shall be lawful for, and the Corporation hereby authorizes the Commission to unite the business of the railway with that of any other railway system operated in whole or in part by the Commission, and to exchange equipment and operators from one system to the other, proper provisions being made so that each system shall pay its proportionate share of the cost of any equipment used in common.

8. If at any time any other municipal corporation applies to the Commission for an extension of the railway into its municipality the Commission shall notify the applicant and the Corporation in writing of a time and place to hear all representations that may be made as to the terms and conditions relating to such proposed extension. If, on the recommendation of the Commission, such extension shall be authorized, without discrimination of the applicant, as to the cost incurred or to be incurred for or by reason of any extension, the Commission may extend the railway upon such terms and conditions as may appear equitable to the Commission.

No such application for an extension of the railway into any municipality shall be granted if it is estimated by the Commission that the cost of service of the railway to the Corporation will thereby be increased or the revenue and accommodation be injuriously affected, without the consent of the Corporation.

9. The consent of the Corporation required under this agreement shall mean the consent of the Council of such Corporation, such consent being in the form of a municipal by-law duly passed by the Council of the Corporation.

10. The railway and all the works, property and effects held and used in connection therewith, constructed, acquired, operated and maintained by the Commission under this agreement and the said Act shall be vested in the Commission on behalf of the Corporation; but the Commission shall be entitled to a lien upon the same for all money expended by the Commission under this agreement and not repaid.

11. If at any time one or more of the municipalities through which the railway now passes or in which a part of the railway is situate applies to the Commission for admission as a party to this agreement for the acquisition and operation of the railway or for the extension thereof in or through the territory of such municipality upon such terms and conditions and subject to such contributions as if it had been a party to this agreement at the date thereof for the acquisition and operation of the said railway, the Commission shall take such steps and permit such votes to be taken as are necessary under the provisions of the said Act to authorize such municipality or municipalities to enter into an agreement under the Act to acquire such an interest.

The Corporation shall thereafter upon the request of the Commission enter into a new agreement with the Commission and the applying municipality or municipalities in the form, so far as applicable, of this agreement, and containing paragraphs 1 *m* and *o*; paragraph 2 *c* and paragraphs 5, 10, 12 and 13 of the standard form of agreement set out in *The Hydro-Electric Railway Act, 1914*, and such other provisions as may be approved by the Lieutenant-Governor in Council and this agreement shall be deemed to be modified accordingly, and shall remain in full force and effect, subject only to such modifications.

12. This agreement shall continue and extend for a period of fifty years from the date thereof, and at the expiration thereof be subject to renewal, with the consent of the Corporation, from time to time for like periods of fifty years. At the expiration of this agreement the Commission shall determine and adjust the rights of the Corporation, having regard to the amounts paid or assumed by the Corporation under the terms of this agreement, and such other consideration as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

13. This agreement shall not come into effect until it has been authorized by an Act of the Legislature of Ontario.

In witness whereof the Commission and the Corporation have respectively affixed their Corporate Seals under the hands of their proper officers.

Between:

The Hydro-Electric Power Commission of Ontario (hereinafter called the "Commission") of the first part,

and

The Corporation of the City of Toronto (hereinafter called the "Corporation"), of the second part.

Whereas the Commission has, at the request of the Corporation, acquired for and on behalf of the Corporation certain properties of the Scarboro Division of the Toronto and York Radial Railway Company, all as described and set out in Schedule "A" (c) hereto, and hereinafter called the "Railway" to be controlled, equipped and operated under the terms of *The Hydro-Electric Railway Act, 1914*, and of a special Act authorizing this agreement;

And whereas the Corporation has requested the Commission to control, equip and operate, and the Commission has agreed with the Corporation on behalf of the Corporation to control, equip and operate the railway upon the terms and conditions and in the manner herein set forth; but upon the express condition that the Commission shall not in any way be liable for any financial or other obligation or loss whatsoever by virtue of this agreement or arising out of the performance of the terms thereof;

And whereas the electors of the Corporation have voted in favour of authorizing the Corporation to enter into the necessary agreements with the Commission for acquiring the railway;

And whereas the Corporation has issued debentures for the amounts set forth in clause 2 b hereof, and has deposited the said debentures with the Commission.

Now therefore, this indenture witnesseth:—

1. In consideration of the premises and of the agreements of the Corporation herein contained, and subject to the provisions of the said Acts and amendments thereto, the Commission agrees with the Corporation,

(a) To equip, and operate the railways on behalf of the Corporation, subject to clauses 11 and 12 hereof;

(b) To issue bonds, as provided in clause 3 hereof, to cover the cost of acquiring the railway;

(c) To furnish as far as possible first-class modern and standard equipment for use on the railways, to operate this equipment so as to give the best service and accommodation possible, having regard to the district served, the type of construction and equipment adopted and all other equitable conditions, and to exercise all due skill and diligence so as to secure the most effective operation and service of the railways consistent with good management;

(d) To regulate and fix the fares and rates of toll to be collected by the railway for all classes of service;

(e) To utilize the routes and property of the railways for all purposes from which it is possible to obtain a profit;

(f)

(f) To combine the property and works of the railway and the power lines of the Commission where such combination is feasible and may prove economical to both the railway and users of the power lines;

(g) To permit and obtain interchange of traffic with other railways wherever possible and profitable; provided always, and it is hereby agreed, that the Commission will not operate any of the trams, cars or other rolling stock of said railway on any highway within the limits of the City of Toronto without first obtaining the consent of the Corporation;

(h) To supply electrical power or energy for operation of the railway at rates consistent with those charged to municipal corporations;

(i) To apportion annually the capital costs and operating expenses of all works, apparatus and plant used by the railway in common with the Commission's transmission lines in a fair manner, having regard to the service furnished by the expenditure under consideration;

(j) To apply the revenue derived from operation of the railway and any other revenue derived from the undertaking to the payment of operating or working expenses, including the supply of electrical power or energy, and the cost of administration and annual charges for interest and sinking fund on the money invested, and such other deductions as are herein provided for;

(k) To set aside from any revenue thereafter remaining an annual sum for the renewal of any works belonging in whole or in part to the undertaking;

(l) To take active steps for the purpose of taking over, equipping and operating the railway at the earliest possible date after the execution of this agreement by the Corporation and the deposit of the debentures as called for under clause 2 b hereof;

(m) To pay over annually to the Corporation, if deemed advisable by the Commission in the interests of the undertaking, any surplus that may remain after providing for the items above mentioned.

2. In consideration of the premises and of the agreements herein set forth, the Corporation agrees with the Commission:—

(a) To bear as hereinafter provided the cost of acquiring, equipping, operating, maintaining, repairing, renewing and insuring the railway and its property and works as established by the Commission;

(b) To issue debentures to the amount of \$240,000.00, maturing in fifty years from 1st December, 1920, and bearing interest at a rate of six per centum per annum, payable half-yearly at the office of the City Treasurer in the City of Toronto, Ontario, which shall be deposited with the Commission previous to the issuing of the bonds hereinafter mentioned. The said debentures are similar to debentures to be issued by the Corporation under the provisions of two other agreements between the parties hereto of even date herewith respecting the Metropolitan Division and the Mimico Division of the Toronto and York Radial Railway, and the total amount of debentures to be issued by the Corporation under the three agreements, for the acquisition of the three railways is \$2,375,000.00;

(c) To make no agreement or arrangement with, and to grant no bonus, license or other inducement to any other railway or transportation company without the written consent of the Commission;

(d)

(d) To keep, observe and perform the covenants, provisos and conditions set forth in this agreement intended to be kept and observed and performed by the Corporation, and to execute such further or other documents and to pass such by-laws as may be requested by the Commission for the purpose of fully effectuating the objects and intent of this agreement.

3. It shall be lawful and the Commission is hereby authorized to create or cause to be created an issue of bonds to be charged upon and secured by the railway and its undertaking, and all the assets, rights, privileges, revenue, works, property and effects belonging thereto and to be for the amount of \$240,000.00, provided that the Commission may, upon obtaining the consent as herein defined of the Corporation, increase the said bond issue by any amount necessary to cover the capital cost of extensions, improvements and additional works or equipment of any kind for use on the railway, and provided that with the approval of the Lieutenant Governor in Council the Commission may dispose of any property not required for the purpose of the railway and use or dispose of the whole or part of the proceeds thereof in expenditure on capital account or invest the whole or part thereof in security of the Province of Ontario for the retirement of the said bonds at maturity.

4. In order to meet and pay such bonds and interest as the same become due and payable the Commission shall in each year after the expiration of ten years from the date of the issue of the bonds out of the revenue of the railway after payment of operating or working expenses, including the supply of electrical power or energy and the cost of administration and annual charge for interest, set aside annually such sums as may be necessary to provide a sinking fund, on basis of not more than forty years for the payment of all the said bonds which shall be held for and applied toward the payment of such bonds or any renewals thereof, at maturity and the Commission shall have power from time to time to issue bonds under the provisions of the said Special Act for the purpose of providing for such additional money as may be necessary with the accumulated sinking fund on hand to repay the bonds so issued when the same respectively mature, provided that the sum so set aside for sinking fund shall be sufficient to provide for payment of all the bonds issued on account of the said railway within fifty years from the said first day of December, 1920.

5. (1) The Corporation is authorized to issue debentures to the amount of \$240,000.00, payable in fifty years from 1st day of December, 1920, and bearing interest at the rate of six per cent. per annum, payable half-yearly.

(2) Upon the execution of the said agreements the Corporation shall issue and deposit the said debentures with the Commission; and is further authorized to and shall, from time to time thereafter upon the requisition in writing of the Commission, issue and deposit with the Commission further similar debentures for the same amount of any increase as provided in subsection 3 of section 9, of the bond issue of the Commission to cover the capital cost of extensions or improvements of the railway.

(3) In the event of the revenue derived from the operation of the railway being insufficient in any year to meet the operating or working expense, including the electric power or energy and the cost of administration and the annual charges for interest and sinking funds on the bonds and for the renewal of any works belonging in whole or in part to the railway, such deficits shall be paid upon demand of the Commission by the Corporation. Any arrears of the Corporation shall bear interest at the rate of six per cent. per annum. If the Corporation shall make default in payment of such deficits the Commission shall thereupon sell or otherwise dispose of so much of the debentures of the Corporation as shall be necessary to supply such deficiency at such rates of discount

discount or premium and such terms and conditions as the Commission in its sole discretion shall deem to be in the interests of the railway, the proceeds of such debentures being used solely for the purposes herein contained.

(4) If the remaining debentures are insufficient in the opinion of the Commission to meet all payments required to be made by the Corporation under this Act or the said agreements, the Corporation is hereby authorized to and shall issue and deposit forthwith with the Commission similar debentures to an amount sufficient in the opinion of the Commission to make up the deficiency.

(5) All debentures issued and deposited with the Commission under this clause shall be held by the Commission as collateral security for the bonds issued by the Commission under clause 3, and for any payment required to be made by the Corporation under this agreement or the said Act.

6. In case the Commission shall at any time or times be prevented from operating the railway or any part thereof by strike, lockout, riot, fire, invasion, explosion, act of God, or the King's enemies, or any other cause reasonably beyond its control, then the Commission shall not be bound to operate the railway or such part thereof during such time; but the Corporation shall not be relieved from any liability or payment under this agreement, and as soon as the cause of such interruption is removed the Commission shall, without any delay, continue full operation of the railway, and the Corporation shall be prompt and diligent in doing everything in its power to remove and overcome any such cause or causes of interruption.

7. It shall be lawful for, and the Corporation hereby authorizes the Commission to unite the business of the railway with that of any other railway system operated in whole or in part by the Commission, and to exchange equipment and operators from one system to the other, proper provision being made so that each system shall pay its proportionate share of the cost of any equipment used in common.

8. If at any time any other municipal corporation applies to the Commission for an extension of the railway into its municipality the Commission shall notify the applicant and the Corporation in writing of a time and place to hear all representations that may be made as to the terms and conditions relating to such proposed extension. If, on the recommendation of the Commission, such extension shall be authorized, without discrimination of the applicant, as to the cost incurred or to be incurred for or by reason of any extension, the Commission may extend the railway upon such terms and conditions as may appear equitable to the Commission.

No such application for an extension of the railway into any municipality shall be granted if it is estimated by the Commission that the cost of service of the railway to the Corporation will thereby be increased or the revenue and accommodation be injuriously affected without the consent of the Corporation.

9. The consent of the Corporation required under this agreement shall mean the consent of the Council of such Corporation, such consent being in the form of a municipal by-law duly passed by the Council of the Corporation.

10. The railway and all the works, property and effects held and used in connection therewith, constructed, acquired, operated and maintained by the Commission under this agreement and the said Act shall be vested in the Commission on behalf of the Corporation; but the Commission shall be entitled to a lien upon the same for all money expended by the Commission under this agreement and not repaid.

11. If at any time one or more of the municipalities through which the railway now passes or in which a part of the railway is situate applies to the Commission for admission as a party to this agreement for the acquisition and operation of the railway or for the extension thereof in or through the territory of such municipality upon such terms and conditions and subject to such contributions as if it had been a party to this agreement at the date thereof for the acquisition and operation of the said railway, the Commission shall take such steps and permit such votes to be taken as are necessary under the provisions of the said Act to authorize such municipality or municipalities to enter into an agreement under the Act to acquire such an interest.

The Corporation shall thereafter upon the request of the Commission enter into a new agreement with the Commission and the applying Municipality or Municipalities in the form, so far as applicable, of this agreement and containing paragraph 1 *m* and *o*; paragraph 2 *e* and paragraphs 5, 10, 12 and 13 of the standard form of agreement set out in *The Hydro-Electric Railway Act, 1914*, and such other provisions as may be approved by the Lieutenant Governor in Council and this agreement shall be deemed to be modified accordingly, and shall remain in full force and effect, subject only to such modifications.

12. This agreement shall continue and extend for a period of fifty years from the date thereof, and at the expiration thereof be subject to renewal, with the consent of the Corporation, from time to time for like periods of fifty years. At the expiration of this agreement the Commission shall determine and adjust the rights of the Corporation, having regard to the amounts paid or assumed by the Corporation under the terms of this agreement, and such other consideration as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

13. This agreement shall not come into effect until it has been authorized by an Act of the Legislature of Ontario.

and

And whereas by indenture dated the 2nd day of March, 1918, the concessionaires, with the assent and approval of the Government did grant, assign, transfer and set over unto Spruce Falls Pulp and Paper, Limited, all the right, title, claims and demand of the concessionaires in and to the said concession;

And whereas it has been agreed by and between the parties hereto that certain lands and premises in the Township of O'Brien, in the District of Temiskaming, should be added to the concession on the terms and conditions hereinafter set forth and contained, also that the agreement hereinafter expressed should be made by and between the parties hereto in respect of the other subjects herein referred to;

Now, therefore, this agreement witnesseth that, in consideration of the premises and of the covenants and conditions herein contained and of the sum of one dollar (\$1.00), in hand, paid by the Company to the Government (the receipt whereof is hereby acknowledged), the parties hereto covenant and agree with each other as follows; that is to say:

1. The Company hereby admits that the increase of dues made by Order-in-Council by the Government of the Province of Ontario, dated the 15th day of June, 1920, from 75c. per cord upon spruce pulpwood to \$1.15, and from 75c. per cord to 95 cents per cord upon balsam and other classes of pulpwood, is a true interpretation of, and in accordance with, the provisions as to the Crown increasing the dues mentioned in paragraph No. 3 of the agreement between the Government and the Spruce Falls Pulp and Paper, Limited, dated the 11th day of June, A.D. 1920.

The portions of said Township of O'Brien set forth and described in Schedule "A" hereto annexed, shall be deemed to be included in the said agreement of 9th February, 1918, as if originally described therein, except that the dues payable by the Company to the Government in respect of the pulpwood and timber cut thereon shall, for the present, be for spruce cut for pulpwood at the rate of \$1.60 per cord, in lieu of \$1.15 per cord, and for all other woods cut for pulpwood at the rate of \$1.30 per cord, in lieu of 95 cents per cord, which said dues of \$1.60 per cord and \$1.30 per cord, respectively, may be increased as provided by said section 3 of the said agreement, dated the 11th day of June, 1920; and for all spruce and other timbers used or cut by it in the operation of its sawmill the Company shall pay such price per thousand feet, board measure, as shall be determined by the Government, from time to time, having regard to the price prevailing for the particular class of timber throughout the Province, and having regard also to the conditions under which said timber is to be cut and logged. The said board measure shall be ascertained by such method of measurement as may hereafter be decided upon by the Government as a general policy for measurement of logs or mill output throughout the Province.

2. The Company shall proceed with and carry on its operations on all the lands described in this agreement and Schedules "A" and "B" hereto, as part of the first operations of the Company, under and pursuant to the rights contained in said agreement of 9th February, 1918.

3. The Company shall cause all brush created by or resulting from its operations on the lands herein particularly described to be destroyed, as may be directed from time to time by the Government.

4. As regards all the portion of said Township of O'Brien not particularly described herein, or in either of the schedules hereto, or contained in what is known as "the Dominion Government Farm," it is understood that same will be set apart by the Government as a reservation for settlers, and in the event of the Government deciding at any time to sell and dispose of the pulp and other timber thereon to other than settlers, the Government will give, and hereby gives, to the Company the first right or option to purchase same for the most favourable price, and on terms upon which the Government is willing to sell and dispose of same to any other purchaser, which said right and option shall be exercisable by the Company at any time within fifteen days from the receipt by it of notice from the Government of said intention, price and terms.

5. The portions of the said Township of O'Brien set forth and described in Schedule "B" hereto annexed shall be leased by the Government to the Company for the term of five years, from the day of the date hereof, at the annual rental of twenty-five dollars (\$25.00), payable in advance on the first day of August in each and every year during said term, the first of said payments of rent to be made on or before the first day of September, 1920. In default of any payment of said rental, or the performance of any covenants on the part of the Company contained in this agreement, for sixty days after notice thereof in writing by the Government to this Company, and demand for payment or performance thereof, as the case may be, the Minister of Lands and Forests of the Province of Ontario may declare this agreement void, and all rights of the Company under this agreement shall thereupon immediately cease. The Company shall have the right or option to purchase said lands, as set out in Schedule "B," hereto attached, in fee simple, at the end of said term of five years, at the price of two dollars (\$2.00) per acre. The Company shall be entitled to cut and remove the pulp and other timber on said lands at any time after the date hereof; subject, nevertheless, to the conditions set out in paragraph 2 hereof, paying therefor dues at the same rate as provided by paragraph 1 hereof.

The Company hereby covenants and agrees with the Government to make such clearance and improvements upon the land so leased as shall be requisite to remove all fire hazards, and to make the same fit for farming operations, as shall be satisfactory to the Government, and the right of the Company to purchase said lands shall be conditional upon the Company having cleared and improved said lands as herein provided. Said lease of said lands to the Company, and said right of the Company to purchase said lands, are and shall be subject to the discretion of the Government to grant to one David Ralston a patent in fee simple of a parcel of land in the town plot of Kapuskasing, in said area of lands described by said David Ralston in a letter from him to the Minister of Lands, dated March 13th, 1920, as Lot No. 1114 George Street, McPherson.

6. The Company shall be entitled to a license of occupation of the island in Kapuskasing River south of the right-of-way of the National Transcontinental Railway, and with necessary booming privileges, yielding and paying for said license of occupation an

annual rental of five dollars (\$5.00), payable in advance on the first day of September in each and every year said license exists; the first of said payments of rental to be made on or before the first day of September, 1920.

7. As regards that portion of what is known as the "Provincial Colony Farm" in said O'Brien Township, and consisting of certain lots and road allowances which may be more particularly described as follows, that is to say:

Commencing at the highwater mark on the easterly bank of the Kapuskasing River, where the same is intersected by the southerly limit of the right of way of the National Transcontinental Railway; thence easterly and south-easterly, following the southerly limit of said right of way to its intersection with the east boundary of lot 20, concession 13; thence southerly along the easterly boundary of said lot 20 to the south-east angle thereof; thence westerly along the southerly limit of said last mentioned lot to the south-west angle thereof; thence south in a straight line across the road allowance between concessions 12 and 13, one chain to the north-east angle of lot 21, in the 12th concession; thence southerly along the east boundary of said last mentioned lot to the south-east angle thereof; thence westerly along the southerly limits of lots 21, 22, 23 and 24 in the 11th concession and a continuation of the same across the road allowance to where it intersects the highwater mark on the easterly bank of the Kapuskasing River; thence north-easterly, following the meanderings of the said highwater mark on the east bank of said river to the point of commencement, containing by admeasurement 466 acres, more or less; as shown coloured green on plan hereto attached.

The Government hereby agrees to sell same in fee simple to the Company and the Company hereby agrees to buy same in fee simple from the Government, at the price and on the terms following, that is to say: For such part thereof as is not now cut over and cleared of stumps (which part is to be delimited by the Government and agreed upon within two months from the day and date hereof) at the price of two dollars per acre, and as to the remainder of the said Provincial Colony Farm, which is now cut over and cleared of stumps, the price is to be at the rate of one hundred dollars (\$100.00) per acre; provided that, if the Company within one month after said delimitation shall, by writing, notify the Government that the Company is dissatisfied with said price of \$100.00 per acre, then the price therefor is to be ascertained by arbitrators, pursuant to *The Arbitration Act*, and be payable by the Company as hereinafter provided.

Each of the parties hereto, within one month after said written notice given by the Company, shall appoint one arbitrator, said two arbitrators to appoint an umpire.

8. All buildings upon the land described in this agreement and the schedules hereto, except the building known as the schoolhouse and the other buildings for which other provision is made herein, are to be purchased by the Company from the Government at a valuation to be agreed upon, or if not agreed upon, then to be ascertained by arbitrators, pursuant to *The Arbitration Act*, and payable by the Company as hereinafter provided; either of said parties hereto being at liberty to appoint one of the arbitrators therefor and notify the other party in writing of said appointment, whereupon said other party shall, within two weeks of the receipt of said notice, notify the other in writing of the name of the arbitrator selected by it; said two arbitrators shall thereupon appoint an umpire.

The schoolhouse is to be retained in its present position until the Government requires its removal to some portion of the

reservation

As to the two houses occupied by agents of the Government, said agents are to be entitled to continue to occupy same until other arrangements are made by the Government. The Government shall be entitled to select a room in what is known as the Administration Building for the use of officials of the Government, for such time as the Government may elect, and said officials shall have free and undisturbed use and access to said room. The right of the Company to the building mentioned in this paragraph, and the furniture contained therein, is subject also to the right of one R. C. Campbell to the dormitories, recreation rooms and kitchen, under the agreement the terms of which are set forth in a letter from the Deputy Minister of the Department of Lands and Forests to H. E. Sheppard, Colonization Superintendent, Kapuskasing, dated May 12th, 1920.

As to all vacant buildings, the Company may take possession of them at once.

9. Save and except as to the furniture in the two buildings hereinbefore referred to, now occupied by the agents of the Government, and the premises to which R. C. Campbell is entitled as hereinbefore provided; also as to the household furniture in the buildings in paragraph 8, hereinbefore referred to, the Company is to purchase such portion thereof as it requires at a valuation to be agreed upon, or if not agreed upon, then to be ascertained pursuant to *The Arbitration Act*, in the manner mentioned in said paragraph 8. The furniture so purchased is to be paid for by the Company as hereinafter provided.

As to the portion of the furniture which the Company does not desire to purchase, same shall be cared for by the Company till the pleasure of the Government is known, and shall then be delivered over as the Government may indicate to the Company.

10. As to the equipment and supplies belonging to the Government in connection with said Colony Farm (including horses, harness, wagons, sleighs, etc.), which the Government does not inform the Company of its desire to retain, the Company shall be entitled to purchase such portion as it may require at a valuation to be agreed upon, and if not agreed upon then, to be ascertained by arbitration, pursuant to *The Arbitration Act*, and payable by the Company as hereinafter provided.

11. All purchase moneys payable by the Company to the Government, pursuant to the agreement, shall be paid as follows, that is to say: The Company shall pay cash for the price of such lands as shall be purchased by it under the option contained in paragraph 5 hereof; as to all other purchase moneys, ten per cent. (10%) thereof shall be paid when the price therefor is agreed upon, or ascertained as hereby provided, and the balance in five equal annual instalments, with interest payable yearly at the rate of 6 per cent. per annum on the balance from time to time remaining unpaid, until same is fully paid, with the right to the Company to repay at any time before maturity, without notice or bonus.

Provided, nevertheless, that at its option, the said Department may construct said approaches, raise said bridges and make said repairs, in which event the Company shall forthwith upon demand pay all cost of said construction, raising and repairing.

14. The agreement herein contained shall enure to the benefit of and be binding upon the parties hereto, their and each of their successors and assigns; provided, however, that no assignment of the agreement dated 9th February, 1918, 11th June, 1920, or of this agreement, shall be made by the Company without the consent of the Government being first had and obtained.

In witness whereof the Minister of Lands and Forests, by command of the Lieutenant-Governor in Council, has hereunto set his hand, with the seal of the Department, and the Company has hereunto affixed its corporate seal, testified by the hands of its proper officers, thereunto duly authorized.

CHAPTER 103.

An Act respecting the Town of Gananoque.

Assented to April 8th, 1921.

Preamble.

WHEREAS the Municipal Corporation of the Town of Gananoque has, by its petition, represented that it has incurred a floating indebtedness of \$15,000; such floating debt was in a large measure incurred by the unexpected increase in county rate of said town by about 100 per cent. over the year 1919, and all previous years and by the fact that the said corporation has in the past never received any financial return from the Board of Water Commissioners of said town, who have used such revenue for making extensions instead of issuing debentures; another reason for such deficit is that the assessment of said town is upon a low scale; and whereas the debenture debt of the said town, exclusive of local improvements, is \$250,000, which debt was largely incurred in the installation of an up-to-date and modern system of waterworks and sewerage in said town, which undertakings were unusually and exceptionally expensive owing to the large quantity and peculiar hardness of the rock formation of said town; and whereas no part of the principal or interest of said debt is in arrear; and whereas the fixed assets of said town are about \$500,000; and whereas the rateable property of the said town, according to the last revised assessment roll, is the sum of \$1,532,017, and the rate for municipal purposes for 1920 was 25.36 mills; and whereas the payment forthwith of the said sum of \$15,000 would under present after-war conditions and in view of the present high cost of living, in addition to meeting the necessary annual expenditure of the corporation, be unduly burdensome and oppressive upon the ratepayers of the said town; wherefore the Corporation of the Town of Gananoque prays that authority be given to borrow the sum of \$15,000 to pay said floating municipal debt now due and owing; and whereas it is expedient to grant the prayer of said petition:

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. The floating debt of the Corporation of the Town of Gananoque is consolidated at the sum of \$15,000 for the purpose of paying the said indebtedness.

Consolidation of floating debt, \$15,000.

2. The said debentures shall be payable in not more than ten years from the date of issue thereof, and shall bear interest at a rate not exceeding six and one-half per cent. per annum and shall be payable at such place or places as the corporation may deem expedient.

Term of debentures.

3. The said debentures shall be issued payable in equal annual instalments of principal and interest in such manner and in such amounts that the amount payable for principal and interest in any year shall be equal as nearly as possible to what is payable for principal and interest during each of the other years of the period within which the debt is to be discharged.

Equal annual instalments of principal and interest.

4. The said corporation shall levy in each year during the period within which such debt is payable, in addition to all other rates, a special rate sufficient to produce the annual instalments of principal and interest falling due upon the said debentures.

Special rate.

5. The debentures and all moneys arising therefrom shall be applied in payment of said floating debt and for no other purpose.

Application of proceeds of debentures.

6. It shall not be necessary to obtain the assent of the electors or ratepayers of the Town of Gananoque to the passing of any by-law which shall be passed under the authority of this Act or for the purposes of carrying out the same or to observe the formalities in relation thereto ordinarily required by *The Municipal Act* or any amendment thereto.

Assent of electors not required.

Rev. Stat., c. 192.

7. No irregularity in the form of said debentures or any of them or of any by-law authorizing the same shall render the same invalid or illegal or be allowed as a defence to any action brought against the corporation for the recovery of said debentures or interest on any part thereof, and the purchaser or holder thereof shall not be bound to inquire as to the necessity of passing such by-law or of issuing debentures or as to the application of the proceeds thereof.

Irregularity in form not to invalidate.

8. The said corporation may, for the purposes herein mentioned, raise the money hereby authorized by way of loan on the said debentures or sell or dispose of the said debentures from time to time as it may deem expedient.

Sale of debentures.

Treasurer
to keep
proper
books of
account.

9. It shall be the duty of the treasurer for the time being of said town to keep and it shall be the duty of each of the members from time to time of the said municipal council to procure such treasurer to keep and see that he does keep a proper book of account setting forth a full and particular statement, so that the same shall always show the number of debentures which shall from time to time be issued under the powers conferred by the preceding sections, and the respective amounts which shall from time to time be realized from the sale or disposal of the said debentures, and the application which shall from time to time be made of the said amounts, and the said book of account and statement shall at all reasonable hours be open to the inspection of any ratepayer of the said town and of any of the holders, from time to time, of the debentures which shall be issued under the powers hereby conferred.

CHAPTER 104.

An Act to incorporate the Town of Georgetown.

Assented to April 8th, 1921.

WHEREAS the Village of Georgetown, in the County of Halton, is an important business centre, in the heart of a rich and well settled farming community, and is rapidly increasing in population owing to its favourable location, and owing to the establishment and operation in the said village of manufacturing industries; and whereas the corporation of the said village have, by their petition, represented that the population of the said village is now greater than that required by *The Municipal Act* for a town, and the incorporation of the village as a town has been requested by the Board of Trade of the village and would greatly promote the future prosperity of the village and enable it to provide for its growing population a more efficient administration of its public affairs; and whereas it is expedient to grant the prayer of the said petition:

Term of debentures.

4. The said debentures shall be issued payable in equal instalments annually of principal and interest in such manner and in such amounts that the amount payable for principal and interest in any year shall be equal as nearly as possible to what is payable for principal and interest during each of the other years of the period within which the debt is to be discharged.

5. The said corporation shall levy in each year during the period within which said debt is payable in addition to all other rates a special rate sufficient to produce the annual instalments of principal and interest falling due upon the said debentures, which levy may be (if and when necessary) over and above the statutory limit of twenty-five mills on the dollar, exclusive of school and local improvements rates.

6. The debentures and all moneys arising therefrom under section 1 of this Act shall be applied in payment of said floating debt, and for no other purpose, and the debentures and all moneys arising therefrom under section 2 of this Act shall be applied to the purposes mentioned in that section and not for other purposes.

account
book.

10. It shall be the duty of the treasurer for the time being of said town to keep, and it shall be the duty of each of the members from time to time of the said municipal council to procure such treasurer to keep and see that he does keep a proper book of account setting forth a full and particular statement so that the same shall always show the number of debentures which shall from time to time be issued under the powers conferred by the preceding sections, and the respective amounts payment of which is thereby secured and the times at which the said debentures shall respectively become due and payable, and the several amounts which shall from time to time be realized from the sale or disposal of the said debentures, and the application which shall from time to time be made of the said amounts, and the said book of account and statement shall at all reasonable hours be open to the inspection of any ratepayer of said town and of any of the holders, from time to time, of the debentures which shall be issued under the powers hereby conferred.

CHAPTER 112.

An Act respecting the City of Niagara Falls.

Assented to April 8th, 1921.

Preamble.

WHEREAS the Corporation of the City of Niagara Falls has by its petition represented that sewers were constructed in the said municipality during the years 1904 to 1918 inclusive, and debentures were issued by the said corporation to defray the cost of the said sewers under by-laws passed for the purpose, such by-laws being passed in conformity with the report of the commissioners appointed under chapter 67 of the Statutes of Ontario, 1903, entitled *An Act providing for the incorporation of the City of Niagara Falls* and providing that a special rate for the corporation's portion of the cost of said sewers should be levied on all rateable property in that portion of the said city which comprised the Village of Niagara Falls prior to incorporation of the City of Niagara Falls, in the case of sewers constructed in the territory formerly comprising the said village and on all the rateable property in that portion of the said city which comprised the Town of Niagara Falls prior to incorporation of the City of Niagara Falls in the case of sewers constructed in the territory formerly comprising the Town of Niagara Falls; that at the time of such incorporation the said town had, but the said village had not a sewer system, that the expenditure for sewers has accordingly been greater in proportion to assessment in the said village than in the said town during said period of fifteen years; that the rate levied in the said village on this account exceeds that in the said town by 2.1 mills on the dollar; that the said report of the commissioners also provided that "the territory now comprising the said village shall become liable to pay to the city corporation for the benefit of that part of the city which now comprises the Town of Niagara Falls, the sum of \$15,000 as and for the excess in value of the assets transferred under this paragraph to the city corporation by the said town above the value of the assets so transferred by the Village of Niagara Falls to the said city corporation and the said sum of \$15,000 with interest thereon shall be paid to the treasurer of the city

city corporation in equal annual instalments of principal and interest extending over a period of thirty years from the first January, 1904, such interest to be computed at the rate of four per cent. per annum, and the whole amount to be so annually paid shall be levied by a special rate during each year of said period of thirty years upon the territory now comprised within the boundaries of said village"; that under the clause of the said report quoted the sum of \$867.45 has been levied annually since first January, 1904, upon said village territory in addition to the rate for the general purposes of the city; that the difference or inequality in the rates levied in the said village territory and said town territory on both of these accounts now amounts to 2.8 mills on the dollar; that in the opinion of the Council it is desirable to do away with such inequality and to have the same rate levied over the whole rateable property in the City of Niagara Falls in lieu of the different rates provided for by said report; and whereas the said corporation has by petition prayed that an Act may be passed for the above mentioned purpose; and whereas it is expedient to grant the prayer of the said petition:

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:

1. Notwithstanding anything in the Report of the Commissioners appointed under chapter 67 of the Statutes of Ontario, 1903, entitled *An Act providing for the incorporation of the City of Niagara Falls* contained, the Corporation of the City of Niagara Falls shall pay for all sewers constructed in the territory comprised within the corporate limits of the said city during the years 1904 to 1918 inclusive, and any special rates imposed by by-laws passed by the said municipality for the purpose of defraying the corporation's portion of the cost of such sewers, shall from and after the first day of January, 1921, be levied upon the whole rateable property in the said municipality.

tion's

cost instead
of special

existing
by-laws.

2. No special rate shall be levied after the first day of January, 1921, upon the territory formerly comprised within the boundaries of the Village of Niagara Falls to raise the said sum of \$867.45, required to be raised annually, to pay the said sum of \$15,000.

CHAPTER 117.

An Act respecting the City of Peterborough.

Assented to April 8th, 1921.

Preamble.

WHEREAS the Corporation of the City of Peterborough has, by petition, represented that the electors of the City of Peterborough have voted in favor of By-laws numbers 2290 and 2302 for the issue of debentures to the extent of \$100,000 and \$130,000, respectively, for the completion of the construction of a high-level bridge over the Otonabee River at Hunter Street; that the said bridge is a permanent structure and has a lifetime of over forty years, and it is desirable that the said By-laws be varied and amended to provide for the debentures to be issued under said By-laws to be payable within forty years, instead of twenty years, as is now provided in said By-laws; that the City of Peterborough has entered into an agreement with Canadian Nashua Paper Company, Limited, dated the 17th day of November, 1920, to pay the said Company \$900 towards the repair of a building leased by the Company from the City, and it is desirable that the said Agreement be confirmed, and to allow the City of Peterborough to raise, without the assent of the electors, the said sum of \$900, either by the issue of debentures or by levying said amount on the ratable property of the City; that the Peterborough Utilities Commission has entered into an Agreement with the Council of the adjoining Township of North Monaghan set forth as Schedule "D" hereto for the construction of a water main and services for the supply of water from the city waterworks to certain residents of the said township and the Council of the township has, by By-law number 784, set forth in Schedule "E" hereto, provided for the construction of said main and services under the provisions of *The Local Improvement Act*, and it is expedient and desirable that the said Agreement and By-law should be ratified, confirmed and validated from the date thereof; that the City Council was, by By-law number 1906, passed on the 2nd day of August, 1915, authorized to borrow the sum of \$50,000 for the purpose of purchasing land for and constructing and

equipping

equipping buildings thereon for the use of the Peterborough Utilities Commission, but owing to the rise in the cost of labour and material since the passing of the By-law and the increased requirements for the utilities operated by the Commission, the said Commission finds that the said sum is not sufficient, and that an additional sum of \$25,000 is required, and has requested the City Council to provide the same, and it is desirable that the said work should be proceeded with and that a By-law should be passed for that purpose without submitting same to the electors; that the said Peterborough Utilities Commission has represented to the Council that it is necessary in the interest of the health of users of water from the municipal waterworks that a filtration plant should be installed, and the land necessary therefor purchased, and has obtained an engineer's report and plans and specifications therefor, the estimated cost for same being \$350,000, and as waterworks debentures for \$230,000 will be payable in the year 1931, for which a sinking fund sufficient for the purpose will then be available, and in order in the meantime to avoid making the charge to water-users excessive, it is desirable that the Council should be authorized to provide that for the first ten years after the issue of debentures for said sum it shall not be necessary to provide a sinking fund, but that a sinking fund sufficient to pay the debentures at the maturity should be raised during the last twenty years of said term, and that the Council be allowed at the time of the issue of the debentures to fix the amount and rates of interest to be paid thereon, and to carry out said purposes that By-law number 2323 of the said Council, passed after being submitted to and approved by the votes of the electors, should be ratified and confirmed, which said By-law is set forth as Schedule "F" hereto; that the Peterborough Utilities Commission has also represented to the Council that, owing to the increased cost of labour and material, the present rate of five cents per foot frontage charged on land fronting on streets on which mains are laid is not sufficient to meet the interest and sinking fund on the outlay and the cost of maintenance, and that the said Commission should be permitted to charge ten cents per foot frontage, and has requested the Council to apply for an amendment to an Act passed in the seventh year of the reign of His late Majesty King Edward the Seventh, chaptered 82. for that purpose, and it is desirable that such request should be complied with; and whereas it is expedient to grant the prayer of the petition;

BY-LAW No. 2302.

A by-law for borrowing the sum of \$130,000 by the issue of debentures in order to complete the construction of a high-level bridge over the Otonabee River at Hunter Street.

Passed the 15th day of November, 1920.

Whereas a by-law was passed, with the assent of the electors, on the 3rd day of July, 1917, authorizing the borrowing of \$260,000 for the construction of a high-level bridge over the Otonabee River at Hunter Street;

And whereas a further sum of \$50,000 has been granted by the Government of the Dominion of Canada towards the construction of the said bridge, and an additional sum of \$5,000 has been ordered to be paid by the Board of Railway Commissioners for Canada;

And whereas a by-law was passed, with the assent of the electors, on the 24th day of August, 1920, authorizing a further sum of \$100,000 for the construction of said bridge;

And whereas it will require the additional sum of \$130,000 to complete the construction of said bridge, said sum being required on account of the increase in the cost of material and labor, which said sum of \$130,000 is the amount of the debt intended to be created by this by-law;

And whereas in order to raise the said sum of \$130,000 it will be necessary to issue debentures of the Corporation of the City of Peterborough for the said amount;

And

And whereas the amount of the whole rateable property of the municipality according to the last revised assessment roll is \$13,600,015;

And whereas the amount of the debenture debt of the corporation, exclusive of local improvement debts, payable by local special rates, is \$2,152,062.92, no part of the principal or interest of which is in arrear;

And whereas it will require the sum of \$8,450 to be raised annually for a period of forty years, the currency of the debentures under and by virtue of this by-law to pay the interest of the debt intended to be created, and the sum of \$1,368.05 to be raised annually during the said period for providing a sinking fund for the payment of the same at the maturity thereof, such last-mentioned sum being sufficient with the estimated interest on the investment thereof to discharge the said debt when the same becomes due, making in all the sum of \$9,818.05 to be raised annually as aforesaid by special rate on the whole rateable property of the municipality;

Be it therefore enacted by the Municipal Council of the Corporation of the City of Peterborough:—

1. For the purpose mentioned in the preamble there shall be borrowed on the credit of the corporation the sum of \$130,000 and debentures shall be issued therefor on the sinking fund plan, in sums of not less than \$100 each, which shall have coupons attached thereto for the payment of interest.

2. The debentures shall all bear the same date and shall be issued within two years after the date on which this by-law is passed, and may bear any date within such two years and shall be payable within forty years from the date when they shall be issued, and shall bear interest at the rate of 6½ per cent. per annum, payable half-yearly on the 30th day of June and the 31st day of December in each year.

3. The debentures as to both principal and interest may be payable at the office of the secretary-treasurer of the Peterborough City Trust at the City of Peterborough or at any branch of the Bank of Montreal in Canada.

4. The debentures shall be sealed with the Corporate Seal of the City of Peterborough and signed by the mayor and treasurer and countersigned by the secretary-treasurer of the Peterborough City Trust. Said debentures to be issued by the mayor and the interest coupons to be signed by the treasurer.

5. During the currency of the debentures there shall be raised annually \$1,368.05 to form a sinking fund for the payment of the debt and \$8,450 for the payment of the interest thereon, making in all \$9,818.05 to be raised annually for the payment of the debt and interest.

6. The debentures may contain any provision for the registration of them authorized by law.

7. The proceeds of the said debentures when sold shall be applied for the purpose of completing the construction of the said bridge.

By-LAW No. 2323.

A by-law to authorize borrowing \$350,000 for the purpose of paying for the land for and the construction thereon of a filtration plant for the water works system and the buildings and appliances necessary therefor.

Passed the eighth day of February, 1921.

Whereas the Peterborough Utilities Commission has represented to the council that it is necessary in the interest of the health of the water users in the city that a filtration plant and the necessary buildings and appliances therefor should be constructed and land suitable for such purpose obtained, and has requested the council to submit a by-law to the votes of the duly qualified ratepayers for the purpose of authorizing the raising the money necessary for such purposes;

And whereas it has been estimated by the engineer of the said Peterborough Utilities Commission that the amount required is the sum of \$350,000, which is the amount of the debt intended to be created by this by-law;

And whereas in order to raise said sum it will be necessary to issue debentures of the corporation for said amount, and as the proposed expenditure of the money for which this by-law is intended to provide may extend over a number of years, and in the opinion of the council it is undesirable to have large portions of the money on hand, unused and uninvested, it is advisable to provide that the debentures to be issued hereunder may be issued in sets of such amounts and at such times as the circumstances require;

And whereas the amount of the whole rateable property of the municipality according to the last revised assessment roll is the sum of \$15,330,375;

And whereas the amount of the debenture debt of the corporation exclusive of local improvement debts payable by local special rates is the sum of \$2,673,244.10, and no part of the principal or interest is in arrear;

And whereas the plans, specifications and an engineer's report of the works to be undertaken have been submitted to and approved of by the Provincial Board of Health;

Be it therefore enacted by the Municipal Council of the Corporation of the City of Peterborough:—

1. For the purposes mentioned in the preamble there shall be borrowed on the credit of the corporation the sum of \$350,000 and debentures issued therefor on the sinking fund plan to be called water works debentures, in sums of not less than \$100 each, which shall have coupons attached thereto for the payment of the interest.

2. The debentures to be issued hereunder may be issued in sets of such amounts and at such times as the circumstances require, but so that the first of the sets shall be issued within two years and all of them within five years from the date of the passing of this by-law, and if said debentures are issued in sets, each debenture of the same set shall bear the same date.

3. The said debentures shall be made payable within thirty years from the date of issue thereof and bear interest in the meantime at the rate of six and one-half per cent. per annum, payable half-yearly on the 30th day of June and the 31st day of December in each year, and may be expressed in Canadian currency, both as to principal and interest, and made payable at the office of the secretary-treasurer of the Peterborough City Trust at the City of Peterborough, or at any branch of the Bank of Montreal in Canada.

4. The said debentures shall be sealed with the Corporate Seal of the City of Peterborough and signed by the mayor and treasurer and countersigned by the secretary-treasurer of the Peterborough City Trust, and the coupons attached shall be signed by the treasurer.

5. The municipal water works and the revenues thereof shall be specially charged with the payment of the principal and interest of the debentures issued hereunder, and the said payment shall also be a charge and liability upon the whole rateable property of the municipality.

6.—(1) Subject to the provisions of sub-section (2) of this section there shall be raised and levied during each year of the currency of the debentures issued hereunder or any set of them by a special rate upon all the rateable property of the municipality the sum of \$22,750, or such part thereof as may be necessary for the payment of the interest on said debentures, or of the sets thereof that may have been issued, and the sum of \$6,241, as a sinking fund for the payment of same at the maturity thereof, making together the sum of \$28,991, or such part thereof as may be necessary to be raised annually as aforesaid.

(2) Provided, however, that the revenues arising from said water works, after the expenses of operation and maintenance thereof and the interest and sinking funds payable in respect to water works debentures heretofore issued have been paid or provided for shall be applied in or towards the payment of the interest and sinking fund of the debentures issued hereunder, and it shall only be necessary to raise in each year of the currency of the debentures issued hereunder or any set of them by special rate upon the rateable property of the municipality such sums (if any) as will with the moneys arising from the revenues of the water works and available therefor be sufficient to make up the said annual sum required for payment of the interest and sinking funds of the debentures issued hereunder or any set of them.

7. The debentures may contain any provision for registration authorized by law.

8. The said debentures when issued shall be handed over to the Peterborough Utilities Commission or disposed of by the council, and the proceeds thereof when sold used for the purposes in the preamble hereof set out.

9. Provided this by-law, including this section thereof, is ratified and declared legal and valid by an Act of the Legislative Assembly of the Province of Ontario, instead of making the debentures to be issued hereunder payable within the time and in the manner hereinbefore provided and making the annual payments of interest and for the sinking fund the amounts hereinbefore set out, the council may by by-law or by-laws passed without the assent of the ratepayers make any of the changes following, namely:—

(a) Provided that during the first ten years from the issue of the first set of said debentures it shall not be necessary to collect or use any of the revenues of the said water works or levy or collect from the ratepayers of the municipality or otherwise provide any amount by way of sinking fund for payment of the said debentures or any set of them at the maturity thereof, but that the council shall for the succeeding twenty years of the term for which said debentures are issued collect from the revenues of the water works or levy and collect by special rate as a sinking fund for the payment thereof the yearly sum of \$11,753.62, instead of the yearly amount herein first provided for, such sum of \$11,753.62 being sufficient with the estimated interest on the investment thereof to discharge the debt to be hereby created when the same becomes payable.

(b) Or provide for the payment of said debentures or any set of them within a period of ten years from the date of issue thereof, and for the re-issue of the same or any set of them, for a further period of twenty years from the date the debentures, payable within ten years, become due, and the council may by said by-law or by-laws, in the event of said debentures being issued payable within ten years, provide that it shall not be necessary to collect or use any of the revenues of the said water works or levy or collect from the ratepayers of the municipality or otherwise provide any amount by way of sinking fund for the payment of the said ten years' debentures at the maturity thereof.

(c) Provided the provisions set out in clause (b) of this section are adopted the said council may by by-law or by-laws passed without the assent of the ratepayers, authorize the re-issue of, and may re-issue debentures for the said sum of \$350,000, or such portion thereof as may be necessary, the said debentures to be made payable within twenty years from the maturity of the debentures payable within ten years from the issue thereof, and said by-law shall provide as a sinking fund for the payment of said debentures the yearly sum of \$11,753.62, instead of the amount herein first provided for, such sum being sufficient with the estimated interest on the investment thereof to discharge the debt to be hereby created when the same becomes payable.

(d) The City Council may by by-law or by-laws passed under the provisions of clauses (a) (b) or (c) of this section, provide and enact that instead of the rate of interest payable on said debt to be created hereby and the amount of said interest to be raised annually therefor as hereinbefore provided, that such rate and amount may be raised or lowered to such rate and for such annual sums as the council may by said by-law provide.

CHAPTER 118.

An Act respecting the City of Port Arthur.

Assented to April 8th, 1921.

WHEREAS the municipal corporation of the City of ^{Preamble.} Port Arthur has by petition represented that by section 5 of *The City of Port Arthur Act, 1912*, being 2 Geo. V, chapter 118, the council of the corporation was authorized to pass a by-law consolidating into one issue of \$1,885,000, the amount of the debentures authorized by the by-laws specified in Schedule "A" to the said Act, and to borrow the said sum of \$1,885,000 by the issue of debentures, payable in forty years and bearing interest at a rate not exceeding four and one-half per centum per annum, payable half-yearly; and whereas no debentures issued under the authority of the said Act have been as yet sold; and whereas, under present conditions, four and one-half per cent. is too low a rate of interest, and it is desirable that the said corporation should have power to issue new consolidated debentures bearing interest at a rate not exceeding 7 per cent. per annum in order that the corporation may be enabled to dispose of them more profitably; and whereas the said corporation has further represented that all sales of land purporting to be made for arrears of taxes and all deeds of such lands made prior to the first day of January, 1920, should be validated and confirmed; and whereas at the municipal election, held on the third day of January, 1921, the municipal electors voted in favour of the election of aldermen for a term of two years, one-half retiring annually, and it is desirable that the council should have power to pass a by-law providing for the election of aldermen for a term of two years; and whereas the said corporation has prayed that an Act may be passed for the above-mentioned purposes; and whereas it is expedient to grant the prayer of the said petition;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

V, chapter 118, and in lieu of the debentures issued under the repealed by-law, hereinafter called "the old debentures," may consolidate into one issue of one million eight hundred and eighty-five thousand (\$1,885,000) dollars the debentures specified in Schedule "E" to the said Act, and may issue new debentures of the corporation to the amount of one million eight hundred and eighty-five thousand (\$1,885,000) dollars.

Term of
debentures.

(2) The new debentures shall be payable within a term not exceeding forty years from the 1st day of January, 1912, and shall bear interest at a rate not exceeding 7 per cent. per annum, payable half-yearly, as may be fixed by the consolidating by-law.

2.—(1) All sales of land in the City of Port Arthur made prior to the first day of January, 1920, and which purport to be made by the corporation of the said city for arrears of taxes in respect of lands so sold, are hereby validated and confirmed, and all deeds of lands so sold, executed by the mayor and treasurer of the said city, purporting to convey the said lands so sold to the purchaser or his assigns, are hereby validated and confirmed, and shall have the effect of vesting the lands so sold and conveyed, or purported to be sold and conveyed, and the same are hereby vested in the purchaser or his assigns and his and their heirs and assigns in fee simple, free and clear of and from all right, title and interest whatsoever on the owners thereof at the time of such sale or their assigns and of all charges and encumbrances thereon, except taxes accrued since those for non-payment whereof the said lands were sold.

Case of
corporation
as pur-
chaser.

(2) Subsection 1 of this section shall extend and apply to cases where the said city or any person or persons in trust for it, or in its behalf became the purchaser of lands at any such tax sale.

(3) Nothing in this section contained shall affect any action, litigation or other proceeding now pending, but the same may be proceeded with and finally adjudicated upon in the same manner and to the same extent as if this section had not been passed. Section not to affect pending litigation.

3. The council of the said corporation may, without the assent of the municipal electors, by by-law passed before the first day of November in any year provide that at the next election, and at each succeeding election thereafter while the by-law remains in force, one-half of the aldermen receiving the highest number of votes shall hold office for a term of two years, and the other half shall hold office for a term of one year, and that at each succeeding election thereafter the aldermen to be elected shall hold office for a term of two years, and that in case all the aldermen are elected by acclamation at the first election, the one-half of them having the highest assessment in the said city, according to the last revised assessment roll, shall hold office for a term of two years and the other half for a term of one year. CHAPTER 119.

An Act respecting the Cities of Port Arthur and Fort William.

Assented to April 8th, 1921.

Preamble.

WHEREAS petitions have been presented by the Corporation of the City of Port Arthur and the Corporation of the City of Fort William praying that it may be enacted as hereinafter set forth; and whereas by their petitions aforesaid the said municipalities have represented that they each own and operate an electric street railway, and that the fare of the said railway has, up to the 1st day of September, 1920, never exceeded in each city the sum of five cents, but on or about that date the said municipalities, by by-law, increased the said fare to an amount exceeding the sum of five cents in each city, and doubt has arisen as to whether or not the said municipalities have power to collect and take such increased fare; and whereas it has been further represented that the said fare of five cents is inadequate; and that the traffic on the said railways at the said rate is not sufficient to pay the expenses of the said railways; and that each year a large deficit results which has to be borne out of the general funds of the municipalities; and whereas it is expedient to grant the prayer of the said petitions;

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

Power to
collect fare
over five
cents.

Rev. Stat.,
c. 185.

1. An Act respecting the Township of Stamford.

Assented to April 8th, 1921.

WHEREAS the Municipal Corporation of the Township of Stamford has by its petition represented that the said Township of Stamford is adjacent to the City of Niagara Falls and the said township has no hospital within its limits and its residents use the Niagara Falls General Hospital; and whereas it is deemed proper and expedient that the said Township of Stamford should assist the Niagara Falls General Hospital Trust in financing the erection and equipment of an addition to the present Niagara Falls General Hospital, and for that purpose pass a by-law authorizing the issue of debentures of the said township to the amount of \$10,000; and whereas according to the last revised Voters' List of the said Township of Stamford the number of electors qualified to vote on by-laws for the creation of debts is 831, of which number 481 are non-residents of the said township, and by reason of such large proportion of non-resident voters, it is very difficult to obtain the necessary percentage of votes to carry such a by-law; and whereas the said municipal corporation has prayed that an Act may be passed enabling the council of the corporation to pass a by-law without obtaining the assent of the electors thereto authorizing the issue of debentures not exceeding the aggregate sum of \$10,000 and to be payable within twenty years from the issue thereof for the purpose of providing for the matters aforesaid; and whereas it is expedient to grant the prayer of the said petition:

COMMITMENT

COMMITMENT LIABILITIES.

(Not included on either side of the above balance sheet).

Building extension	\$110,000 00
Letter of credit	480,000 00
Rubber on contract	684,000 00
Fabric on contract	4,880,000 00
	<hr/>
	\$6,154,000 00

No provision is made in the above statement of assets for depreciation of fabric, rubber or manufactured goods in hand or under contract. The value (cost price) of manufactured goods is \$4,500,000, of raw material on hand \$3,500,000, of fabric and rubber contracted for \$6,044,000.

To depreciate manufactured goods 15 per cent. and raw material 50 per cent. would entail a loss to be written off of \$5,450,000, and in the opinion of the management of the company this would be more than sufficient to meet the situation. By reducing the par value of the common stock from \$100 per share to \$10 per share, a contingent reserve fund of \$4,798,600 will be created which, with the reserve of \$540,000 (already set up as shown in statement of liabilities above) gives a total reserve of \$5,338,600.

RECAPITALIZATION.

1. Common stock—150,000 shares of \$10 each, \$1,500,000.

The changing of the par value of 53,320 shares now outstanding from \$100 each to \$10 each, will enable the company to establish a contingent reserve fund of \$4,798,600 to take care of any loss that may accrue from operation on the present cost of manufactured and raw materials.

2. Six per cent. cumulative prior preference stock, divided into 45,000 shares of \$100 each, \$4,500,000.

The holders of prior preference shares shall be entitled to and will receive quarterly as and when declared by the board of directors, cumulative dividends at the rate of six per cent. per annum out of the surplus profits of the company in each year from the first day of January, 1921, or from such later date as the respective shares may be issued in preference to and with priority over any payments of dividends upon the preferred stock, or common stock. In the event of the liquidation, dissolution or reorganization by way of amalgamation or otherwise of the company or of any distribution of its assets other than by way of dividends out of the surplus profits arising from the conduct of its business, and in the case of the liquidation or dissolution on account of insolvency the holders of prior preference stock shall be entitled to be paid the par value of their shares plus accrued and unpaid dividends thereon out of the assets of the company before any distribution is made to the holders of preferred stock or common stock.

Principal and dividends on prior preference shares shall be payable in United States currency so long as the holder thereof is, or in the opinion of the board of directors is, domiciled or *bona fide* resident therein, and the decision of the board of directors in their sole discretion as to *bona fide* beneficial ownership and as to the domicile or residence of such holder shall be final.

The company shall have the right at its option upon any dividend paying date on notice as hereinafter provided, to redeem all or any portion of the said prior preference stock at the par value thereof plus accrued and unpaid dividends thereon, and in case

less than all the shares are being redeemed, the respective shares to be redeemed shall be selected by lot in such manner as the board of directors in its sole discretion shall by resolution determine.

For sinking fund provision, voting rights and notice of redemption, see terms below under heading "General Terms Affecting Prior Preference Stock and Preferred Stock."

3. Seven per cent. cumulative preferred stock, divided into 150,000 shares of \$100 each, \$15,000,000.

The holders of preferred stock shall be entitled to and will receive quarterly as and when declared by the board of directors cumulative dividends at the rate of seven per cent. per annum out of the surplus profits of the company in each year from the first day of January, 1921, or from such later date as the respective shares have been or may be issued in preference to and with priority over any payments of dividends upon common stock. In the event of the liquidation, dissolution or reorganization by way of amalgamation or otherwise of the company or of the distribution of its assets other than by way of dividends out of the surplus profits, arising from the conduct of its business, and in the case of the liquidation or dissolution on account of insolvency, the holders of preferred stock shall, subject to the rights of holders of prior preference stock, be paid the par value of their shares plus accrued and unpaid dividends thereon out of the assets of the company before any distribution is made to the holders of common stock.

Dividends on preferred stock shall be paid at the option of the holder (said holder being the *bona fide* beneficial owner) in the currency of the country in which such holder is, or in the opinion of the board of directors is, domiciled or *bona fide* resident, provided the premium of exchange does not exceed five per cent., and the decision of the board of directors, in their sole discretion, as to *bona fide* beneficial ownership and as to the domicile or residence of such holders shall be final.

The company shall have the right at its option (after the whole of the prior preference stock shall be redeemed) to redeem in Canadian currency all or any portion of the said preferred stock at 110 per centum of the par value thereof plus accrued and unpaid dividends thereon and in case less than all the shares are being redeemed, the respective shares to be redeemed shall be selected by lot in such manner as the board of directors in its sole discretion shall by resolution determine.

For sinking fund provision, voting rights, and notice of redemption, see terms below under heading "General Terms Affecting Prior Preference Stock and Preferred Stock."

4. General Terms Affecting Prior Preference Stock and Preferred Stock.

During the six months following the end of each financial year of the company and until the whole of the prior preference stock shall have been redeemed, the company shall apply ten per cent. of its surplus earnings remaining after paying thereout fixed charges and dividends on its prior preferred stock and preferred stock then outstanding (including arrears thereof, if any), in the redemption of prior preference stock at a price under the par value thereof plus accrued and unpaid dividends thereon if same can be purchased for such price by tender (which shall be called for by advertisement published once a week for two consecutive weeks in a daily paper in the cities of New York, N.Y., Toronto, Ontario, and Montreal, Quebec), and if it cannot be so purchased for such

a price by March 31 in any year then it shall be called in and redeemed on the first day of June next succeeding at par plus accrued and unpaid dividends thereon by lot as above provided; Provided that after application of the said ten per cent. there will remain a balance of said surplus earnings of at least \$500,000; and to the extent to which there shall be a balance of the said surplus earnings so remaining of upwards of \$500,000 then to the extent by which earnings exceed \$500,000 (but not exceeding the amount applied to the redemption of prior preferred stock so long as any of the same remains unredeemed and thereafter not exceeding 10 per cent. of the said surplus earnings) the company shall redeem and cancel preferred stock at a price under the par value thereof plus accrued and unpaid dividends thereon if the same can be purchased by tender as aforesaid for such a price, and if it cannot be so purchased then it shall be called in and redeemed at the price of the par value thereof plus accrued and unpaid dividends thereon.

In all cases of redemption of prior preference stock and preferred stock, notice shall be given by registered letter directed to the respective stockholders whose stock is chosen for redemption, to their respective addresses appearing on the books of the company, mailed postage prepaid at least thirty days prior to the date fixed for redemption; on or before the said date the holders of preferred stock so called for redemption shall deposit with the secretary of the company, at the head office thereof, for cancellation (and the substitution of new certificates for his redeemed holding, if any), the certificates for the said stock duly endorsed, in default of which the stock may be cancelled on the books of the company upon the company paying the amount due thereon on redemption into a chartered bank at Toronto to the credit of the said holders.

No mortgage or lien on the real estate, machinery or fixed assets of the company shall be given nor will any bond, debenture or other evidence of indebtedness secured thereon be made without the approval in writing of the holders of at least 60 per cent. in amount of both classes of preferred stock of the company then outstanding given separately or by resolutions passed with the like approval at meetings of the said classes respectively specially held to consider the same, nor shall any preferred stock over and above the \$15,000,000 par value now authorized having priority over or ranking on a parity therewith be issued without the like consent and approval on the part of the holders of the preferred stock.

Each share of stock of the company (prior preference stock, preferred stock and common stock) shall entitle the holder thereof to one vote. The board of directors of the company shall be seven in number, subject to increase or decrease to nine or five in accordance with the provisions of *The Ontario Companies Act*, and the common stockholders voting as a class shall be entitled to elect four of the new board, and five or three as the case may be in event of increase or decrease, and the prior preference stockholders and preferred stockholders voting together shall be entitled to elect the remainder of the board, namely: three or four or two as the case may be.
